Excipients: Curcuma, Linicera ciliosa, white willow, Yeast, solvents, conservanses, xantham gum. up to 1,5ml	

natural advanced formula in gel

Glucosamine and Chondroitin

naturally occurring compounds provide strong building-block support needed to maintain healthy cartilage

Hyaluronic Acid (HA)

key component that naturally lubricates joints and aids in shock absorption. HA is added specifically to our 'advanced' formula to protect the joint by promoting healthy joint viscosity, normal healthy function, and flexibility.

MSM

compound containing sulfur and other beneficial ingredients, is a well-known supplement for support of healthy joints. MSM promotes the normal physical performance of healthy connective tissue and cartilage.

Turmeric Root ,Linicera and white willow bark extracts

compounds with a long history of use for maintaining healthy joints, help to reduce oxidative stress and manage occasional joint discomfort. They provide support for the natural range-of-motion function of the joint. Turmeric helps also to promote healthy tissue circulation. Willow bark reduce pain.

Yeast promotes faster and easier digestion. Supplement is very palatable. Dose and administration : 15ml of gel daily per 200kg of body weight apply in corner of mouth. It can be used for a longer period of time. In case of severe damage of articulations and joints ,daily dose can be repeated on 12h interval. There is no contraindications and adverse reactions. Store protected from humidity and light, up to 25 C, away from children. Presentation : 100 ml animal feed supplement
