

# HistoVet premix

Feed additives for animals in powder

## COMPOSITION:

Natural components:

- Oregano oil
- Cinnamon leaf oil
- Clove
- Eucalyptus
- Thymus crystal
- Oregano powder

Vitamins:

- Vitamin A
- Vitamin E
- Vitamin B1
- Vitamin B2

## USE:

*Histomonas meleagridis* is species of parasitic protozoan that infects a wide range of birds including chickens, turkeys, peafowl, quail and pheasants, causing blackhead disease, infectious enterohepatitis, or histomoniasis. *H. meleagridis* can infect many birds, but it is most deadly in turkeys. It inhabits the lumen of cecum and parenchyma of liver, where it causes extensive necrosis. It is transmitted by another cecal parasite, the nematode *Heterakis gallinarum*.

HistoVet belongs to the group of phytobiotic with significant properties to *Trichomonas* spp., *Histomonas* spp. and anaerobic germs; The action against flaked protozoans is potentiated by many ingredients of this product like cinnamaldehyde, thymol, nerolidol and 2-decinal.

It is advisable to provide as a support for hydro soluble and lip soluble vitamins and minerals. HistoVet can be given and combined with all supplements and medicines.
