

RespiGuard

Feed additives for animals in oral form

COMPOSITION:

Natural components:

- Garlic
- Eucalyptus oil
- Thyme tincture

Preservatives and solvents:

- Glycerin
- Purified water

USE:

RespiGuard is recommended for prevention and help in treatment of respiratory infections different etiology.

RespiGuard solution contains a high concentration of natural garlic extract and eucalyptus. The active ingredient of garlic is allium sulfate which has antibacterial, antiviral, antifungal, anti-parasitic, and anti-inflammatory effect. It strongly supports cardiovascular and immune systems; stimulate lipid metabolism; play a role in the liver protection and regeneration. The sensitive organisms to allium sulfate are as follows: bacteria (*E. Coli*, *Actinobacilus sp.*, *Pasterella multocida.*, *Salmonella sp.*, *Clostridium perfringens*, *Staphylococcus aureus*, *Streptococcus sp.*, *Pseudomonas aeruginosa*, *Klebsiella pneumoniae*, *Enterococcus faecium* *Camphylobacter sp.* *Mycoplasma sp.*), fungi (*Candida sp.*, *Trichophyton sp.*, *Microsporium sp.*, *Cryptococcus sp.*), parasites (*Cryptosporidium parvum*, *Entamo ebahistolytica*, *Giardia lamblia* or *Leishmania sp.*).

Eucalyptus oil expands respiratory pathways and thereby facilitates breathing. The composition has a secretolytic effect, thereby allowing easier release of the products from the respiratory tract infection. Cineol 1.8, compound of Eucalyptus has also very strong antibacterial effect.

Thyme tincture increase immunity status and helps antibacterial effect of RespiGuard. Thyme has strong antibacterial and anti-inflammatory effect, with impact to stimulate immune system, improved absorption of nutrients secure easier breathing.

TARGET SPECIES: Pigs, poultry, pigeons, cattle, rabbits and horses

DOSAGE:

Poultry, pigs, rabbits: 1L per 2000 l of drinking water or 1L per 1 ton of feed, 7-10 days.

Pigeons: 1ml per 2 L of drinking water, 7-10 days.

Adult cattle: 20-25 ml per animal/daily or 700 ml per 1 ton of feed, 7-10 days.

Calves: 5-9 ml per animal/ daily, divided into 2 applications, 7-10 days.

Horses: 10-20 ml per animal/daily, 7-10 days.

For complete protection, treatment duration (7-10 days), maybe repeated every three weeks.

CONTRAINDICATIONS: None described

ADVERSE REACTION: None

WITHDRAWAL PERIOD: None

SPECIAL PRECAUTIONS: Store protected from humidity and light, on a temperature up to 25°C. Keep away from children. Keep in closed containers.

WAY OF ISSUE: Without a prescription.

PRESENTATIONS: 1 L

ANIMAL CONTROL FACILITY NUMBER: α RS 31-029

PRODUCER NAME AND HEADQUARTERS: Vetplanet d.o.o. Vršac, Vojvodjanskih brigada 16 ,
