

# STRONG ACTIVE Gel

Feed additives for animals in gel

## COMPOSITION:

Trace elements:

- Cobalt
- Iron
- Magnesium
- Copper
- Zinc

Vitamins:

- Choline chloride

Preservatives and solvents:

- Glycerin
- Xanthan gum
- Purified water

## USE:

Strong Active gel helps in the following cases: diet deficient in minerals, in reproductive disorders, growth disturbances, metabolism disorders, gastro-intestinal disorders, for maximum utilization of genetic resources, improvement of immune response, alleviating stress conditions. Using this preparation is also recommended during treatment with antibiotics, viral infections and conditions which cause the stress in the animals.

Choline is a lipotropic factor that assists in transport of lipids from the liver to adipose tissue and thereby prevents the formation of fatty liver. As a donor of methyl groups, it contributes to the elimination of toxins from the body.

**TARGET SPECIES:** Pigs, cattle, sheep, goats, horses

## DOSAGE AND ADMINISTRATION:

By pressing the content from syringe into the mouth of the animal in the necessary daily doses:

Cows: 50-80ml
