

STRONG ACTIVE

Feed additives for animals in oral form

COMPOSITION:

Trace elements:

- Cobalt
- Iron
- Manganese
- Copper
- Zinc
- Selenium

Vitamins:

- Choline chloride

Preservatives and solvents:

- Purified water

USE:

Strong Active helps in the following cases:

Diet deficient in minerals, in reproductive disorders, growth disturbances, metabolism disorders, gastro-intestinal disorders, for maximum utilization of genetic resources, improvement of immune response, alleviating stress conditions. Using this preparation is also recommended during treatment with antibiotics, viral infections and conditions which cause the stress in the animals.

Choline is a lipotropic factor that assists in the transport of lipids from the liver to adipose tissue and thereby prevents the formation of fatty liver. As a donor of methyl groups, it contributes to the elimination of toxins from the body.

TARGET SPECIES: Poultry, pigs, cattle, sheep, goats, horses.

DOSAGE AND ADMINISTRATION: Per oral administration after dissolving in drinking water in these doses:

Poultry: 0.4-1 L per 1000 L drinking water
