

# VetCalm

## Feed additives for animals in powder

### COMPOSITION:

Natural components:

- Valerian extract
- Lemon balm extract
- Vetiver extract

Trace elements:

- Mg sulphate

### USE:

VetCalm premix with its balanced mixtures of herb extracts acts against stress and anxiety.

Melissa officinalis (lemon balm) and Valeriana officinalis (valerian) have been used both traditionally and contemporaneously as mild sedatives, anxiolytics and tranquilizers. Animals are relaxed but not sedated. By increasing GABA (gamma-amino butyric acid), natural chemicals produced in the brain, the state of relaxation is achieved. A soothing message is transmitted from nerve to nerve. Magnesium sulphate as dietary supplement together with plants extracts helps to reduce stress, and makes animals more calms in stages of the periods of intensified stress such as transport, temperature, veterinary procedures. As product has no residual effect on meat, it can be used before slaughtering. Using products by prescription has no influence on daily weight gain.

**TARGET SPECIES:** pigs, cows, sheep's and horses

### DOSAGE:

Dose is 1kg/1T of feed 3-5 days, if it's necessary, repeat treatment after 7 days.

**CONTRAINDICATIONS:** None described

**ADVERSE REACTION:** None.

**SPECIAL PRECAUTIONS:** Store in a dry and cool place protected from humidity and light. Keep away from children. Keep in closed containers.

**WAY OF ISSUE:** Without a prescription

**PRESENTATIONS:** 100g, 1kg, 10kg

**ANIMAL CONTROL FACILITY NUMBER:** α RS 31-029

**PRODUCER NAME AND HEADQUARTERS:** Vetplanet doo, Vrsac, Vojvodjanskih brigada 16,  
Serbia
