

# FERTY – S

Feed additives for animals in powder

## COMPOSITION:

Vitamins:

- Vitamin C
- Vitamin E
- L-Carnitine
- Folic acid
- Biotin

Trace elements:

- Organic selenium

Natural components:

- Mixture of dry herbal extracts

## USE:

The consumption of Ferty S during lactation leads to optimal regeneration of the reproductive organs, which must be ready for quick entry into a new pregnancy. Improves generation of egg cells, their number and conception. Ferty S helps individuals to maximize their genetic potential, and to give as many new-born animals and a uniformed litter in pigs. In cows, sheep and goats help for healthy newborn animals and easier and faster conception.

**TARGET SPECIES:** Sows, cows, sheep and goats

## DOSAGE:

Per oral administration by feed or solved in water.

Sows: 5g/sow/daily (feed or water), or 1,7kg per 1T of feed. 3-4 weeks before insemination
