USE:

MultiPowerBiotic is a carefully chosen combination of vitamins, minerals, amino acids, and probiotics which helps to strengthen the immune system, during and after the bacterial and viral infections. It also acts synergistically to antibiotic therapy after anticoccidial and other antiparasitic therapy. MultivitPowerBiotic relieves stress symptoms caused by vaccination, diseases, high humidity, high temperature, large temperature fluctuations, specimens transfer to a new environment or transport.

Dairy yeast probiotic represents bioregulator of the intestinal bacterial flora. Induces the production of lactic and acetic acids which may significantly lower the pH value, which creates an unfavorable environment for the growth of pathogenic bacteria. It represents a powerful immunomodulator, and strengthens the immune system and general health. It controls the relationship of saprophytic and pathogenic microorganisms. It works to increase appetite, conversion and utilization of food.
