

Omega MSM

Skin and fur syrup oral solution

COMPOSITION:

- Omega 3 fatty acids
- Omega 6 fatty acids
- Methylsulfonylmethane (MSM)
- Biotin

PROPERTIES OF INGREDIENTS: The functions of omega 3 fatty acids are numerous and very significant, they are part of all cell membranes and structures, affect the absorption of fat soluble vitamins (A, D, E, K), regulate the metabolism of blood fat (triglycerides, cholesterol). they generate energy in the body, affect the development of brain cells, aid the function of the immune system, participate in the synthesis of certain hormones, prevent the onset of cardiovascular disease because they affect the regulation of blood pressure, against arrhythmia and prevent the onset of atherosclerosis, reduce the tendency of thrombosis. Omega 6 fatty acids help reduce nerve pain, they are especially important for maintaining bone health, regulating metabolism and therefore stimulating the growth and renewal of skin and hair. They participate in the fight against inflammation, reduce blood pressure, reduce the risk of heart disease. MSM is methylsulfonylmethane, the organic form of sulfur and the fourth most important mineral in our body. It has anti-inflammatory, antioxidant, immune-modulation. It is used as natural element which helps relieve joint pain, a natural mineral that helps treat allergies and inflammation. MSM is important for the formation of keratin, collagen and elastin, which provide flexibility, shape and strength to muscles, bones, joints, inner membranes, skin, hair and nails.

DOSAGE: 1ml /5kg BW, 7-10 days. It can be given over a long period of time.

PRESENTATION: 250ml with syringe for oral administration

CILJNE VRSTE ŽIVOTINJA: Dogs, cats

SPECIAL PRECAUTIONS: Store protected from humidity and light, on a temperature up to 25°C. Keep away from children.

WAY OF ISSUE: Without a prescription.

ANIMAL CONTROL FACILITY NUMBER: α RS 31-029

PRODUCER NAME AND HEADQUARTERS: VetPlanet d.o.o. Vršac, Vojvodjanskih brigada
16, Serbia
