

# UroVet

Supplements for kidney problems and urinary tract

## COMPOSITION:

- pomegranate,
- fennel
- caraway
- parsley
- artichoke
- vitamin C
- sorbitol

**PROPERTY OF INGREDIENTS:** Sorbitol is an osmotic diuretic, used in kidney disorders and chronic renal failure caused by increases in blood nitrogen and oliguria and disorders caused by hypovolemic shock or trauma. Its long-term use does not cause disturbances in electrolyte balance, does not cause excessive loss of potassium and is very effective in treating the heart because it does not interfere with the heart impulses. Dry plant extracts are used in the treatment of kidney and bladder. They are powerful diuretics, they help to eliminate kidney and gallstones. They accelerate the excretion of toxins and lower blood sugar levels. It has an effect on the liver, bile, urea metabolism and cholesterol secretion. They also work against inflammation.
