Supplements for cats

PetCalm spray

Natural supplement for relaxation and anti-stress

INGREDIENTS: Valerian, vetiver, sage, basil, lemon balm, lavender

DESCRIPTION: Pet calm contains a carefully selected mixture of essential oils that acts to reduce stress and anxiety, as well as relaxation in animals, but without sedation.

DOSAGE: Shake gently before use.

- PetCalm spray is applied by spraying on the hand or glove and rubbed on the fur or directly by spraying on the animal's hair in the area of the top of the chest, under the chin, muzzle and cheeks, avoiding direct spraying into the nostrils, eyes and ears. For one treatment with a standard package of cat it is enough to spray 3-4 times.
- It is necessary to wait 15-20 minutes for the action to begin.
- The product is pH neutral, has a beneficial effect on the skin and fur and has no side effects.
- The preparation acts immediately and can be repeated at intervals of 2 to 6 hours (individual tolerability), but also more often with pronounced calming needs.
- PetCalm spray is most often used in all stressful situations for the animal: fireworks, thunder, travel, alone at home, change of residence, noise, visit to the vet or hairdresser, as well as in situations of behavioral changes (especially aggression), persistent scratching and caring, loss of appetite .
- For easier inspection, it is recommended that veterinarians spray the animal's curling mat ten minutes earlier.
- PetCalm spray can also be sprayed on an animal mat, car seat, cover equipment or transport boxes. Hairdressers can apply PetCalm on the table and equipment as well as on the apron.
- PACKAGING: 50ml, 300ml

HairBallFree gel

Supplement to improve digestion in cats

INGREDIENTS: Malt, taurine, omega 6 acids

DESCRIPTION: Hairball Free helps prevent the formation of hairballs.

The product ensures that the hair easily passes through the intestines of cats, which prevents the problem of hair accumulation in the intestines. Essential oils help maintain a healthy intestinal flora. This in turn helps improve digestion, a healthy immune system and reduce harmful bacteria.

- **DOSAGE:** 2-3 ml Hairball free 3-4 times a day. Give between meals, on the toe of the cat to lick, or apply to the front paws where it can lick or squeeze the gel on the root of the tongue.

- To prevent the formation of hairballs,
- give 3 ml of Hairball free 1-2 times a week.

- **PACKAGING:** 20ml

Lysine gel

Immune system support for cats with viral infections

INGREDIENTS: Lysine, vitamins, zinc, malt, yeast, vegetable oils

DESCRIPTION: Herpesvirus infections in cats (so-called feline viral rhinotracheitis) can be a big problem. Most cats are exposed to the virus at some point in their lives. Infected cats sneeze, have a blurred vision, feel weak from a few days to several weeks, and after that they recover unevenly. Once a cat is infected, the virus stays in the body all the time. The virus is always there, waiting for a chance to cause new problems.

Lysine VP meets the needs of the lysine supplement, which is known to help treat feline herpes virus, both for respiratory and eye symptoms. This gel helps control the effects of the virus and protects the infected animal.

DOSAGE: By squeezing the gel content into the mouth of the animal in the required daily doses:

Adult cats: 1-2ml twice daily

Young cats: 1ml twice a day

PACKAGING: 20ml

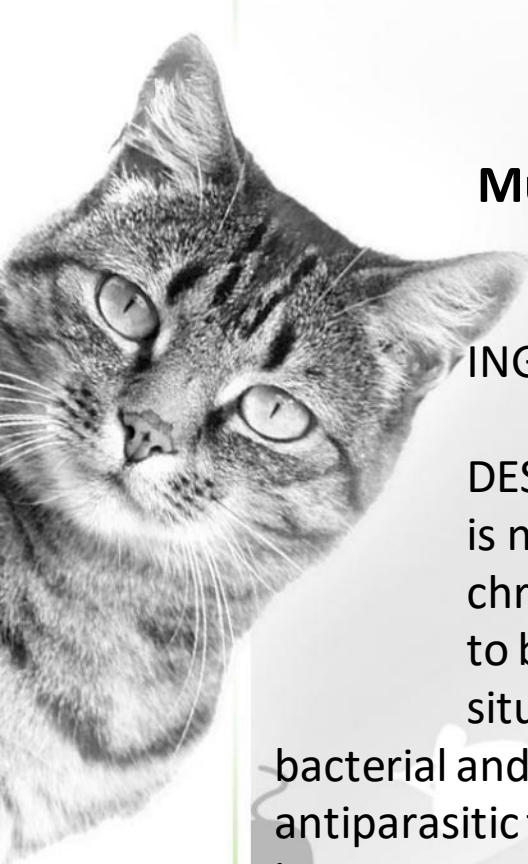

SuperCat

- Support for immunity and good health
- **INGREDIENTS:** taurine, vitamins, amino acids, trace elements
- **DESCRIPTION:** Supercat VP contains all important vitamins, minerals and easily digestible proteins in combination that is necessary for proper growth and development of cats, quality hair, promotes better vision, healthy digestion, normal development of bones and teeth, stimulates fat metabolism and proper function of skin and mucous membranes, increases the defense against infection. It prevents premature keratinization of the upper layer of the skin and thus promotes hair growth.
- **DOSAGE:** By squeezing the contents of the gel into the mouth of the animal in the required daily doses:
Adult cats: 3-5ml per day
Young cats: 2ml twice a day
- **PACKAGING:** 20ml

MultiPowerBiotic

Multivitamin complex with probiotics in the form of a gel

INGREDIENTS: Vitamins, amino acids, trace elements, probiotics

DESCRIPTION: Multipowerbiotic gel is used in all conditions in which it is necessary to strengthen the immunity: in the period of acute and chronic diseases, recovery, etc. MultiPowerbiotic gel is recommended to be given when the decline of immunity is expected due to stressful situations, it helps strengthen the immune system, during and after bacterial and viral infections, as a synergistic support for antibiotic therapy, after antiparasitic therapies. MultiPowerbiotic gel relieves symptoms of stress caused by vaccination, disease, high humidity, high temperature, competition or transportation. It also has a beneficial effect on skin and fur.

DOSAGE: cats 2-3ml

PACKAGING: 20ml

HepaRen detox gel

Liver and kidney supplement

INGREDIENTS: Sorbitol, choline chloride, betaine, lysine, L-carnitine, artichoke, rosemary, parsley, wormwood, fenugreek

DESCRIPTION: Heparen detox gel has a strong effect on metabolism and immunity, increases appetite and food intake. A great advantage is the maintenance of stable function of parenchymal organs, such as the liver and kidneys, which is especially important in poisoning, which is common in practice. It is also recommended when water intake is reduced, prevents the accumulation of fat. It has a positive effect on the secretory function of the pancreas, as well as on body weight, fetal development, growth and development.

DOSAGE: It is applied for 5-10 consecutive days.

Young cats 2 ml / day, 10 days, adult cats 5 ml / day

PACKAGING: 20ml

Probiotic VP

Probiotics in capsule

INGREDIENTS: Probiotics of the genus *Bacillus*, inulin

DESCRIPTION: Probiotics are living microorganisms that, after being introduced into the digestive system, have beneficial effects on the host animal by altering the gastrointestinal flora. The effect on the digestive tract is that the benefits of probiotics for dogs and cats include maintaining the intestinal micro flora in balance and encouraging a healthy population of microorganisms. In this regard, they lead to the consequent prevention of diarrhea associated with stress, infectious causes or antibiotics, and in addition they have an impact on chronic diseases of the intestinal tract. Immunostimulation of probiotics is manifested through a direct effect on intestinal lymphoid tissue and immunoglobulin.

DOSAGE:

Cats: 1 capsule daily for 7 or more days as long as considered necessary.

PACKAGING: 70 capsules

Methacid

Prevent the formation of certain types of stone formations and reduce the smell of urine

INGREDIENTS: Methionine

DESCRIPTION : Methionine is an essential amino acid, used in protein biosynthesis. Since the body is not able to produce methionine, it is necessary to meet the requirements in food. Adequate amounts of methionine allow for balanced liver function while methionine deficiency can lead to fatty liver degeneration.

Methionine is commonly used to acidify urine and is not recommended for kittens or animals with kidney problems, pancreatic disease, or liver failure. Acidification of urine can help prevent the formation of certain types of stone formations and reduce the smell of urine.

Target species: cats

DOSAGE: Cats: 1 tablet daily

It can be given over a long period

PACKAGING: 70 tablets

Skin&Coat

Healthy skin and coat

INGREDIENTS: Vitamin C, MSM, biotin, vitamin B1, B2, B6, E, folic acid

DESCRIPTION: Skin and Coat is a 100% safe and effective, non-addictive, natural supplement. Formulated by our team of experts to promote skin health and shiny, glossy coats for dogs and cats, Skin and Coat supports hair shaft and follicle health, and skin vitality. It helps normal shedding, supports pigmentation and highlights in coat colour.

Skin and coat contain a scientifically chosen selection of vitamins known to support shiny coats, especially for 'show pets' before competitive events. It also provides support for liver, kidney, and thyroid functioning, as well as immune system health in pets.

DOSAGE:

Cats: 1 capsule daily as long as considered necessary.

PACKAGING: 70 capsules
